# GENERAL INFORMATION

Welcome to Fromex Photo & Digital, a full service lab offering quality photofinishing, digital imaging and custom framing. Since 1982, we've offered fast yet professional service. Unlike other labs, we do all of our work in house. We cater to all photographers from beginners to seasoned professionals. Thank you for coming to Fromex Photo & Digital.

## **Fromex Photo & Digital**

5277 E. 2nd Street, Long Beach, CA 90803

### **Hours of Operation:**

Monday thru Saturday      10am to 6pm  
Sunday                              Noon to 5pm

We are closed on New Year's Day, Easter Sunday, Memorial Day, 4th of July, Labor Day, Thanksgiving Day and Christmas Day. We also close early on Christmas Eve and New Year's Eve.

We stop processing film 1½ hours before closing. Online digital orders with X-Wire will be available for pick up after 2pm the following day. Turnaround times listed here are weekdays only. For your convenience, we have a night drop box so you may drop off orders even when the lab is closed.

## **Terms of payment**

In store we accept cash, VISA, MasterCard, American Express, Discover Card, Debit, ATM cards, travelers checks and personal checks. Personal checks must be accompanied by a valid California driver's license. A deposit may be required on any order exceeding \$100.

Online orders are paid through PayPal.

Open charge accounts are available to commercial businesses only. Statements are paid monthly from a credit card on file. Applications are available at the counter; accounts must be approved and opened before any order is submitted (credit approval usually takes 3-5 days).

## **Our guarantee of quality**

Everyone here at Fromex Photo & Digital takes great pride in their work. We thank you for entrusting us with your images. We do our very best to ensure that we have produced the very highest quality prints and photo products. However, if you are not completely satisfied, please let us know. We will reprint them at our expense. We welcome your comments on our service. Thanks again.

# GENERAL INFORMATION

## **Rush services and charges**

We will try to accommodate reasonable service time requests without additional rush charges as long as there is machine availability and adequate staff. For lab work such as negative, print or slide scanning, digicopies, restoration, retouching, design work, etc., the rush charge for faster than one day service is a minimum of \$15.00 per order. Ask a manager for pre-approval and a quote.

## **Overtime Services**

By prior arrangement, the lab will open early or remain open beyond our normal operating hours. Two weeks notice is required and the fee is \$100 per hour with a \$200 minimum.

## **Limit of liability**

Submitting any film, print, slide, negative or electronic media to Fromex Photo & Digital for processing, printing, mounting, framing, or other handling constitutes an agreement by you that any damages or loss by our company, subsidiary, or agents, even though due to the negligence or other fault of our company, subsidiary or agents, will only entitle you to replacement with a like amount of unexposed film or electronic media. Except for such replacement, the acceptance of the film, print, slide, negative or electronic media is without other warranty or liability, and recovery for any incidental or consequential damages is excluded.

Fromex Photo & Digital does not assume liability, whether lost or damaged by fire, theft, negligence or any other means, for customer supplied materials, such as frames, paintings, artwork, etc., that are submitted with orders. Should you choose to leave materials or prints not processed in our lab for mounting or framing, we cannot assume responsibility for any damage incurred.

We cannot be responsible for materials left unclaimed for more than 30 days after completion of your order. All prices and service specifications are subject to change without notice.

## **Copyright laws**

Fromex Photo & Digital respects the right of all artists and photographers to their copyrighted materials. We accept copyrighted materials only if written permission has been granted by the copyright owner. The customer further agrees to hold harmless and indemnify Fromex Photo & Digital for any costs or judgments resulting from claim for copyright infringement by the owner or his/her lawful assigns.

# DIGITAL FILE PREPARATION

In order for us to consistently provide the highest quality results from your digital image files, we created some guidelines for file creation and organization prior to delivery to our lab. By following these guidelines, your order will not only be completed in a more timely manner, but in many cases at a lesser cost to you.

## **Prints from Digital Camera Media, Phone Media, and Mobile Devices:**

We are able to print from Compact Flash, Smart Media, Memory Stick, Memory Stick Duo and Pro, SD, SDHC, Mini-SD, Micro SD, XD, MMC, RS-MMC, Trans Flash, Mini CD, ZIP disk and Floppy disk.

- Acceptable file formats are JPEG, PSD and TIFF only.
- We are able to access photos from most mobile devices at our self-service digital bar.
- Most people find prints made from files with a resolution of 640x480 unacceptable. We recommend a minimum file resolution of 1600x1200 for quality 4x6 prints. See our “Resolution Explained” hand-out sheet at Fromex or on our website at [www.fromex.com](http://www.fromex.com). We cannot make prints from video clips.

## **Files on DVD, CD, Blu-Ray, USB Flash Drives, or delivered online:**

We accept DVD, CD, Blu-Ray, USB Drives, and large files sent online through [www.transferbigfiles.com](http://www.transferbigfiles.com)

- Image files must be JPEG, PSD or TIFF (extra charge for files submitted in RAW format).
- All files must be saved in 8-Bit RGB color and cannot have any layers, channels, paths or LZW compression.
- Do not submit files in CMYK color.
- File names must have only one period (.) followed by jpg, tif or psd.
- There cannot be any apostrophes (‘), exclamation points (!), or other characters (#,~,%,\$, etc.).
- Files must be sized proportionately to the print size requested to avoid cropping
- Our time to fix any incorrectly formatted files or convert file types will be billed at \$60/hour.
- For photographic quality results, resolution should be 300 ppi at print size.
- Do not submit files on i-photo CDs. External hard drives cannot be accessed at our digital bar.
- Files sent by email for prints smaller than 16x20 will be charged a handling fee of \$10 per order.

## **Balancing Your Monitor:**

Be aware that if your monitor is not color balanced, the files seen on our monitors and the resulting prints may not match your monitor. We have two suggestions that will help:

- 1) Free and simple – Ask for our reference print, then go to Digital File Setup Guide on our website and compare the print to your screen. Instructions are included to adjust your monitor’s color and density.
- 2) Better and accurate – Purchase one of the Datacolor ([www.datacolor.com](http://www.datacolor.com)) Spyder4 software and hardware packages. This will accurately balance all of your monitors: CRT, LCD and laptops.

## **Color Space:**

If you are using a point and shoot digital camera, we suggest that you do not try to adjust the color or density of your images. We look at and correct each photo as we are printing them. If you are using a digital SLR camera, we ask that you shoot your images in the sRGB color space, as this is native to all digital cameras and is the color space in which our digital printers are calibrated. If you shoot raw files and convert them in Photoshop or any other program, we advise leaving them in sRGB instead of converting them to Adobe RGB or any other color space. Customers requesting prints with no corrections, do so at their own risk; redos will be at an additional charge.

## **iPhoto CDs:**

Please do not use iPhoto CDs to deliver files to us. Apple’s file organizing and sharing program called iPhoto creates multiple copies and thumbnail images in multiple folders and subfolders. Rather, select your image files and burn them to a CD with conventional CD writing software.

# SENDING DIGITAL FILES ONLINE

## **X-Wire Software - Order online from any computer:**

The X-Wire system is an easy to use web-based software that can be found on the Home Page of our website at [www.fromex.com](http://www.fromex.com). Any size prints from wallets to 40x60s can be ordered online. Also available are cropping, choice of finishes, borders, B&W, canvas prints, life-size cutouts, and more. Only JPEG files can be uploaded. Choose to pick-up in store, ship to you, or ship to another location and pay online securely through PayPal. Prices and more information are on page 7.

## **Order directly from your Phone or Tablet from our Mobile Website:**

It's easy to order prints directly from your phone, tablet or other mobile device and pick up at Fromex. Simply access our Fromex Mobile website from your mobile device by going to [www.fromex.com](http://www.fromex.com). Select Order Prints and follow instructions.

## **Sending us PSD, TIF, PDF or other large files:**

We use an online service called Transfer Big Files to send files to us that cannot be sent any other way. It is FREE and only requires that you create a Log-In and Password. Go to [www.transferbigfiles.com](http://www.transferbigfiles.com) and send the files to [info@fromex.com](mailto:info@fromex.com).

We DO NOT normally use standard email to receive image files for printing. Orders sent through email or prints smaller than 16x20 will be charged a \$10 Email Service Fee.

## **Organized File Folders (OFF System) on CD or USB Drive:**

The following system is intended only for professional sports and events photographers who need prints from a large volume of files. Files delivered on CD or a USB drive and organized in the following manner will receive discounted print pricing if all criteria are met:

- All specifications listed in "Files on CD" on page 5 must be met or regular prices will be charged.
- Each different print size, paper finish, and quantity must have a separate folder labeled as such. Example: A folder named "5x7 Glossy 1 each" or "8x10 Matte 2 each".
- **Each folder must contain at least ten image files and the total order must be \$100 or more.**

### **The following OFF PRICING will be used if all criteria are met:**

2x3, 3.5x5, 4x6 prints	\$ 0.45	6x8 and 6x9 prints	\$ 1.95
5x7 prints	\$ 0.99	8x10 and 8x12 prints	\$ 2.95
		10x15 and 11x14 prints	\$ 6.50

## **Fromex Image Recovery Services:**

If you encounter problems with your digital camera memory card, such as corrupted files, missing files, or accidentally deleted files; we can help. Our image recovery services can often recover files that are lost, deleted or damaged. The cost of recovery varies from \$30 to \$250 depending upon the size of your camera memory card. There is no charge unless we are able to recover images. Call us or come in the store.

# DIGITAL COPY SERVICES

## DigiCopy

DigiCopy is a premium quality print to print archival photographic process. It is only one generation from your original print and will provide the best possible reproduction of your original. Your print is scanned, color, density and contrast corrected, and printed on a state of the art digital printer. A CD of the image is provided along with the new print. For additional future reprints or enlargements merely bring in the CD.

## DigiCopy Prices

Excellent color reproduction and an amazing preservation of detail from heirloom family photos or any print for which you no longer have a negative. Prints can be enlarged or reduced; cropping is available. Your choice of glossy or matte paper. Standard turnaround is 1-2 days.

*Note: Fromex will not reproduce any copyrighted materials without written consent. See pg 4*

## Prints from large transparencies, overheads and X-rays

This is a direct positive to positive print with excellent sharpness and color reproduction. Transparencies are back-lit and scanned to a digital file. Maximum original size for all back-lighted materials is 11x17 inches. Standard sizing is normally 1:1, although reduction or enlargement is available. Surface is glossy or matte. The same prices and quantity breaks as "DigiCopy" above. In addition to the prints, a CD of the scan is provided.

See page 11 for Wide Format Prints.

See page 14 for scanning materials larger than 11x17.

# PANORAMIC PRINTS

## Panoramic prints from your film or digital files

Panoramic prints can be made by cropping an existing image, stitching multiple frames together, or taking the photo with a panoramic enabled panning digital camera or mobile device.

Film type	Size	Quantity price breaks from the same negative only				
		1-9	10-49	50-99	100-499	500+

6x36	15.95	12.95	(11x panoramics same as 12x)		

Prints larger than 36" long will be printed as wide format, max length is 90". See page 11.

\* Quantities of more than 10 pano prints require a quote.

*Note: Panoramic prints can be produced from any media; TIFF, PSD or JPEG digital files only, and should be sized appropriately at 300ppi for maximum quality output. See file preparation on page 5. Turnaround time is usually 1 hour to overnight depending on our workflow. Price for stitching together multiple digital files requires a price quote.*

# WIDE FORMAT PRINTS

## Large Custom Color and B&W Digital Enlargements

Our large color digital enlargements are premium quality archival prints with 100 year color permanence, perfect for framing and display. They are color and density corrected and are available on your choice of paper (see below). Cropping and color matching are available. Your original image can be a negative, slide, print or digital file. We can add text, create composites or collages, and provide restoration or retouching for an additional charge.

## Five Paper / Substrate Choices

**1. Photo Luster** - This is a premium (10.4 mil) heavyweight resin coated luster paper. It is bright white, archival and water resistant.

-Encapsulation with a 3 mil heat seal glossy laminate on both sides is recommended if the print is not being mounted or framed. Encapsulation is \$4/sq.ft.

- Lamination with 5 mil glossy is \$4/sq.ft. and 5 mil matte or satin is \$5/sq.ft.

**2. Watercolor**- This heavy weight watercolor textured paper (12 mil 210 gsm) is ideal for artwork.

**3. Smooth Fine Art**- This smooth fine art paper (15 mil 270 gsm) is 100% rag and neutral white. It is acid-free archival quality and perfect for color or black & white work.

**4. Artists' Canvas**- This is a waterproof artists' canvas made from 100% cotton. It is neutral white and has a textured (19 mil 350 gsm) weave. We topcoat all stretched canvas prints with a clear finish to seal and protect the print; your choice of glossy, satin, or matte finish. Note that canvas requires 2" of material all around for stretching on a wood frame. A United Inch (U.I.) is length + width.

-Stretching for framing with white edges or gallery wrapped on 5/8" stretcher bars is \$1.00/U.I.

-Stretching with gallery wrapped edges on 1 3/8" stretcher bars is \$1.50 /U.I.

Ask us about all custom framing and finishing options for canvas prints.

**5. Vinyl**- This is a 10ml water resistant material that is stretched on stretcher bars like canvas for a more modern high tech look. Stretching prices are the same as for Artist Canvas above.

We also make vinyl banners with grommets any size 2'-8' in height and 2'-20' in length at \$4.00 /sq.ft.

# LIFE-SIZE CUTOUTS & STICK-UPS

## A Life-Size Cutout

It is a print mounted on 3/16" foam board with a matte laminate and a secure base. It is perfect for events and parties. If the cutout is to be shipped, we will make it in two pieces for easy assembly. For long term use, added reinforcement is available.

The price is based on the height and width of the cutout. A standard cutout up to 30" wide is \$25 per foot of height (minimum 3 feet), cutouts 30"-36" wide are \$30 per foot of height (minimum 3 feet), and cutouts 36"-44" wide are \$35 per foot of height (minimum 3 feet). Odd sized cutouts or anything wider than 44", a separate quote will be required. Talking and thought bubbles are \$40.00 each and are made to be removable from the cutout. Turnaround time 3-4 days.

## A Stick-Up

It is a removable and repositionable print with a UV lacquer protective coating and a sticky back. It can be stuck to smooth walls, glass, mirrors, cars, floors, ceilings and more. It can easily be removed without damage to walls or painted surfaces. Think of it like a giant Post-It note with a photograph on it. It can be left as a rectangle or cut out to the subject. You can easily cut it out yourself with high quality sharp scissors. A standard Stick-Up up to 24" wide is \$20 per foot of height (min 3 feet), wider Stick-Ups between 25"-42" wide are \$27 per foot of height (min 3 feet). Cutting away the background is an additional \$5 per foot. Turnaround time 3-4 days.

## The Head-on-a-Stick

This is a life-size print of a face only, mounted on cardboard or foamcore and glued to a stick for parties, or whatever you can imagine. There are three versions:

Economy - Printed on 8½x11 card stock and includes a stick; you cut it out....\$3.95

Standard - Printed on 8½x11 card stock and glued to a stick; we cut it out.....\$5.95

Deluxe - Photographic print mounted on foamcore, laminated and cut out ....\$19.95

# CUSTOM FRAMING

## Traditional Custom Framing

We use quality materials and standard framing procedures that will best display your photograph or artwork. We offer a large selection of wood and metal mouldings, quality acid-free matboards and a selection of glazing materials. We can frame photographs, artwork, certificates and collectable objects. All work is done on the premises with a 7-10 day turnaround.

Wood & metal mouldings range from \$10- \$25 per foot

Acid free matboards range from 60¢ - \$2.00 per United Inch (Width + Height)

Standard framing glass is 40¢ per United Inch

Example: a typical 11x14 print with a \$12 moulding and a double 3” mat is about \$150.00

The fitting (assembly labor) charge is waived when you purchase a moulding.

Canvas stretching is \$1.00-\$1.50 per United Inch (Height + Width) for standard and gallery design depending on your choice of stretcher bars. See the Wide Format page 11 for details.

## Conservation Framing

Conservation framing utilizes materials and techniques that will best protect and preserve the art. All methods are completely reversible without leaving any impressions or residue on the artwork. We offer 100% cotton rag matboards, 98% UV protection glass, museum glass and conservation mounting and fitting procedures that do not harm the original artwork. All work is done on the premises with a 7-10 day turnaround.

100% cotton matboards range from \$1.00 - \$3.00 per United Inch (Width + Height)

Conservation or museum glass is 75¢ - \$3.00 per United Inch

Example: a conservation framed 11x14 print with the same moulding as above is about \$250.00

# PRINT MOUNTING

## Hot & Cold Mounting, Laminating and Encapsulating

We can mount your print, enlargement or poster on a variety of surfaces and also apply a protective glossy, satin or matte over-laminate film. Turnaround time is 1-3 days depending on the size of the job.

### Description of materials used

- Cardboard: Durable and inexpensive; use in a frame behind glass. Trimable to any size up to 12x18. Available in either **black** or **white** core.
- Foam-Cor (3/16"): Sturdy, non-wrinkling and very lightweight; use with or without a frame, edges are unfinished. Trimable to any size.
- Masonite (1/8" or 1/4"): Sturdy wood, an extremely smooth surface. Finished edges and hanging brackets attached. See pricing note for cutting to odd sizes.
- Plexi/Acrylic: Photo grade clear acrylic 2.5mm (.098"), smooth, lightweight and shatterproof.
- Gatorfoam (3/16"): Sturdy, non-warping and lightweight. Edges are black and unfinished but look nice. Trimable to any size. Mounting blocks can be added for \$4.50 per print
- Styrene (0.08): Extremely stable and durable. Good for exterior signage. 16x20 max size.
- Gatorboard (3/4"): This is the premium mounting board; sturdy, non-warping, lightweight and has finished edges. Standard sizes only, no trimming possible. Black or white.
- Mural Mount\* (1 1/2"): Same as Gatorboard but 1 1/2" thick. Only available in sizes 11" wide and larger and may require special order of 4-6 weeks. Custom sizes available.
- Museum Bamboo: Wood wall mount 3/4" thick, and table blocks 1 1/2" thick. Exceptional quality.
- Lamination: A 5 mil heat sealed glossy, satin or matte protective film.
- Encapsulation: A 3 mil heat sealed, glossy lamination applied to both sides of the print, to block damaging UV rays and protect it against fingerprints, dirt, and moisture.
